## ABOUT OUR WINE LIST

Our wine list is always evolving. We take many factors into consideration when picking the wines during the selection process. During this time we wanted a few common themes to run simultaneously through our list.

The first theme is that these wines needed to be interesting and of a very good quality to enhance your experience while here at the Wildflower Inn. Be it with dinner, while overlooking the valley, or in the privacy of your room, a good bottle of wine can be the perfect way to enhance any occasion.

The second theme is that every wine on the list was picked depending on its ability to accompany our menu items. The selection of an appropriate wine can transform a great meal into a memorable feast. Our staff is more than happy to assist you in the selection of which types of wines traditionally best accompany our dishes.

The next theme that we wanted to pass on pleased us greatly. We wanted some of the wines that we selected to embody who we are and what we represent. We wanted a few of the wines to be from wineries that share our respect for the environment and healthy living. We have denoted the wines on the menu that are born from organic/biodynamic techniques. We will continuously be working with our vendors to grow this portion of our list when appropriate.

Finally, we purposely selected wines from a local winery to help us exhibit the true beauty of what Vermont has to offer. These wines are a revelation for any wine drinker! They proved to be an added bonus for us and something we truly enjoy sharing with you and our friends!

“Wine to me is passion. It is family and friends, warmth of heart and generosity of spirit.”

- Robert Mondavi
